

# Product Update

Issue Date: March 09

[www.gib.co.nz](http://www.gib.co.nz)

In this issue:

## Compounds now available in cartons

**GIB Plus 4<sup>®</sup>**, **GIB ProMix<sup>®</sup> All Purpose** and **GIB ProMix<sup>®</sup> Lite** are now available in cost effective "refill" cartons. These cartons offer an approximate saving of 13-16% compared to pails. Pails continue to be available and we recommend transferring the contents of the carton into a 15L pail to properly seal unused compound or if further mixing is required.

We believe these products will be very well received by the trade as quality cost effective solutions.
