

## Product Update

Winstone Wallboards is pleased to announce the release of the following three new products, display material and order information.

All available from May 27th.

### GIBFix<sup>®</sup> One - replaces GIBFix<sup>®</sup> Wood Bond

GIBFix<sup>®</sup> One will replace GIBFix<sup>®</sup> Wood Bond. GIBFix<sup>®</sup> One is still a water-based adhesive but is now also suitable for use on LOSP treated timber and steel stud.

It has great flow and adhesion, and an Ultra Low VOC content. GIBFix<sup>®</sup> One is priced the same as the GIBFix<sup>®</sup> Wood Bond products. GIBFix<sup>®</sup> One is available in a 375ml cartridge, a 600ml sausage and a 4 Litre pail.

The cartridge has a new stronger threaded joint to fix the nozzle to that makes it sturdier for use on building sites. A great improvement for trouble free use.

GIBFix<sup>®</sup> One is a great new adhesive for fixing GIB<sup>®</sup> plasterboard, it is versatile and environmentally friendly.

### New GIB<sup>®</sup> Gapfiller and GIB<sup>®</sup> Aquaseal

After extensive testing we are pleased to launch GIB<sup>®</sup> Gapfiller and GIB<sup>®</sup> Aquaseal, two great performing products.

GIB<sup>®</sup> Gapfiller is paintable and has excellent adhesion to a broad range of materials such as plasterboard, timber, concrete, glass, ceramic, tiles, bricks, etc. It is water based, so cleaning up tools etc is simply done by using water, has an Ultra Low VOC content and is easy to work with during application. GIB<sup>®</sup> Gapfiller is white and comes in a 300ml cartridge.

GIB<sup>®</sup> Aquaseal is a new generation of water based silicon sealant. It cures by release of moisture, contains a mould inhibitor and forms a flexible and tough seal (ie tested to +/-25% movement & up to 130°C; and thus is suitable for use around the bath even with a heater in the bathroom).

GIB<sup>®</sup> Aquaseal is the ideal sealant for use in wet areas of the house. It is white and comes in a 300ml cartridge. It also has an Ultra Low VOC content and can be painted (see instructions).

## New Brochure and Display Boxes

A new brochure is available to highlight the key features and benefits for all the GIB® adhesives and sealants.

New display boxes with the key product details are available for the products supplied in cartridges.

The brochures and display boxes can be ordered from your local Winstone Wallboards Area Representative (from the 27th of May onwards).

Please do not hesitate to contact your local Winstone Wallboards representative, our Helpline on 0800 100 442 or myself with any queries.
