

Gorilla Bags – Plasterboard

Green Gorilla specialise in providing long term sustainable solutions for all your recycling and waste requirements.

Gorilla Bags for plasterboard are the ideal way to sustainably recycle your excess plasterboard offcuts.

Constructed from durable, recyclable polyethylene, these 2 cubic metre Gorilla Bags are tough enough to handle up to 1000kg loads. Simply fill the bag with your plasterboard offcuts, call or email us to request a collection and we'll take it away.

Your full bag will be transported to our Resource Recovery facility in Onehunga where it will be processed through our plasterboard recycling plant which separates the gypsum from the paper; both are then recycled.

Using GREEN GORILLA minimises waste sent to landfill.

PLASTERBOARD

2 cubic metres – 1000kg

ORDER AS PART OF THE AUCKLAND GIB® DELIVERED TO SITE SERVICE

You can order your Green Gorilla 2M³ Plasterboard Waste Bags as part of the Auckland GIB® Delivered to Site Service.

Simply order your bag when placing your GIB® plasterboard order with your merchant and it will be included in your GIB® Delivered to Site order (GIB® SKU Number 15860).

Bag Ready for Pick Up? Simply contact **Green Gorilla** using the contact details on the bag.

WHY RECYCLE YOUR PLASTERBOARD OFFCUTS?

Environmentally Responsible:

- Building owners are increasingly demanding more environmentally responsible construction methods. **Green Gorilla** plasterboard recycling provides a simple way to reduce the amount of construction waste going into landfill from your project.
- The site plasterboard offcut waste is diverted away from landfill and then recycled into gypsum.

Greenstar and Homestar Accreditation:

- **Green Gorilla** plasterboard recycling can provide an accurate waste diversion from landfill reporting to help meet your projects Greenstar or Homestar landfill diversion targets.

Simple and Efficient Logistics:

- **Green Gorilla Plasterboard Bags** can be ordered from your merchant at the same time as placing your GIB® plasterboard delivered to site order.
- The bags are delivered to site along with your GIB® plasterboard order.
- When the waste bag is full simply call or email **Green Gorilla** to arrange to pick up from the site. **Green Gorilla** contact details are printed on the side of the bag.

PLEASE NOTE:

Green Gorilla plasterboard recycling is available in the **AUCKLAND REGION ONLY** (GIB® Plasterboard Delivered to Site Zones 1 & 2).
