

2020 GIB® Fire Rated Systems CPD

Part 1 Aims to educate Architects and Designers on recent developments within the fire industry including:

- Compliance Pathways and the Framework around Fire Protection.
- Performance requirements such as Reaction to Fire and Fire Resistance. Offering insight to the Characteristics of Materials when affected by Fire.
- Design Considerations and the Intricacies of fire testing and application. Also how to incorporate overlapping requirements such as Acoustics and Bracing.

Part 2 Looks into the solutions offered within recently released GIB® literature, to enable efficient specification of fire rated systems, detailing and construction methodology. We cover the:

- 2018 GIB® Fire Rated Systems Literature including - New Product, Systems and Detailing.
- 2019 GIB® Fire Rated Systems Supplement.
- 2019 GIB Weatherline® Rigid Air Barrier System.
- Compliance and Fire Rated Systems.
- GIB® Innovations and Support.
