# **Environmental Certification Overview**

**Issue Date: August 2020** 

### **Environmental** Building Standards

customers are looking to achieve

### Homestar, Greenstar, Passive House.

### GIB® Plasterboard Environmental Certifications

which contribute towards environmental building standards.

One of the world's most robust, trusted and widely recognised ecolabels.

### GIB® Plasterboard **GreenTag Certifications:**

Level A: GIB® Standard. GIB Braceline® GIB Noiseline,® GIB Fyreline,® GIB Toughline,® GIB Wideline.® Level C: GIB Ultraline,® GIB X-Block®

Internationally recognised environmental certification.

### GIB® Plasterboard **GECA Certification:**

10mm GIB Aqualine®

Note: Contains a trace amount of recycled flyash which is outside the scope of the Global GreenTag certification.

## GECA Declare.

Considered the most advanced sustainability certification in the built environment. Declare provides insight into the ingredients used in the products manufacture.

### GIB® Plasterboard **Declare Certifications:**

GIB® Standard, GIB Braceline,® GIB Noiseline,® GIB Fyreline,® GIB Toughline,® GIB Aqualine®

### GIB® Plasterboard Compliance and Monitoring **Programme**

used to help maintain GIB® environmental certifications.

Winstone Wallboards is the first plasterboard manufacturer in Australasia to publish an Environmental Product Declaration (EPD). The EPD quantifies the environmental performance of GIB® plasterboard including its carbon footprint, embodied energy and other environmental data. Projects utilising GIB® plasterboard qualify for full Green Star points due to Winstone Wallboards holding an EPD for six or more products.
